EDUCATION

Sant Gadge Baba Amravati University Amravati

Jul 2021 – Jun 2024

Bachelor of Computer Application;

Percentage- 71.33%

Maharashtra State Board | Pune

Sep 2019 – Jul 2021

12th Percentage- 84.17%

10th Percentage- 84.80%

July 2018 – Mar2019

TECHNICAL SKILLS

- Programming Languages: Java , JavaScript
- Libraries & Frameworks: Hibernate, Spring, React js
- Web Technologies: HTML5, CSS3, tailwind CSS, RESTAPI
- Databases: MySQL, SQL Server
- Version control: Git, GitHub

PROJECTS

Motorola Shopping Website :

Technologies Used: HTML, CSS, ReactJS, Tailwind CSS, Node.js, Express.js, Custom API

- Built a full-stack e-commerce website for Motorola products using ReactJS, Node.js, and Express.js.
- Designed a responsive and modern user interface with Tailwind CSS to enhance the overall user experience.
- Developed a custom RESTful API in Node.js to manage product data.
- Integrated the API with the front end, enabling real-time product data updates and seamless interactions.
- Implemented features such as product browsing, detailed product views, and a shopping cart.

E-commerce Website with Dummy API :

Technologies Used: React.js, Redux, HTML, CSS

- Built a responsive e-commerce website fetching data from a dummy JSON API.
- Implemented search functionality and an "Add to Cart" feature.
- Displayed project details with billing summaries, discounts, and totals.
- Deployed the application on **Vercel** for live access: <https://e-commerce-project-beige-six.vercel.app/>

Todo App Using React Redux :

Technologies Used: React.js, Redux, Vercel

- Developed a Todo application that allows users to manage their tasks efficiently.
- Implemented state management using Redux to handle application state and actions seamlessly.
- Designed a user-friendly interface for adding, editing, timer, darkmode and deleting tasks.
- Deployed the application on **Vercel** for live access: <https://todo-app-using-react-redux-pi.vercel.app/>

Course Management System :

Technologies Used: Java, JDBC, Servlets, Maven, HTML, CSS, Apache Tomcat with basic skill

- Designed and implemented CRUD operations for course management.
- Deployed the application on a local machine using Apache Tomcat.
- Utilized Maven for dependency management and project build.
- Managed backend database operations using JDBC for seamless interaction.

KEY TAKEAWAYS FROM EXPERIENCE AND PROJECTS

- **Programming Expertise:** Strong command of programming languages like Java, JavaScript
- **Database Management:** Hands-on experience with databases like MySQL, SQL Server.
- Proficient in **React.js** and front-end development principles.
- Hands-on experience with building responsive UI components and integrating back-end services.
- Strong problem-solving and debugging skills with attention to detail.

ACHIEVEMENTS

- Successfully developed and deployed projects demonstrating comprehensive full-stack capabilities.
- Achieved academic excellence with consistent high scores in technical subjects.

COURSEWORK & TRAINING

- **Java FullStack with React.js**, IT Shaala Institute (Currently Pursuing)

CERTIFICATION

- **Front-end Web Development:** by Reliance Foundation skilling Academy
- **Java Programming for Beginner Course:** by Crio.do
